

**BROOKLYN BRISTOL ACCUSED AGAIN.**  
THE TIME & TIDE, GIRL, THE NEWS, TELL  
A Grandmother Story About Her.

**STORY.** Dec. 29.—Ida Downs, a girl of 16, from a Brooklyn asylum, was bound out to service in November last for two years to the Rev. Dr. George H. Bristol, now of the Spring Valley, Rockland county, Methodist Church. Justice Thomas H. Gummell is next door neighbor to Dr. Bristol. On Saturday last Ida told Mrs. Gummell that Dr. Bristol had criminally assaulted her on three occasions. Mrs. Mrs. Gummell advised Ida to report the offense to Mrs. John C. Ward, who was doing in all cases of Dr. Bristol's stories. The pastor was summoned, and another afternoon a meeting of the church officers. What happened is not known. Ida left Dr. Bristol's house and went to Mr. Gummell's to stay. While there she was interviewed by S. H. Bell and his son, two officers of the church. Dr. Bristol came to New York to defend his return to the parsonage. Justice Gummell said she had not herself under his protection, but he returned to her care. Finally Mrs. Gummell advised further trouble would arise if he leave the house.

Dr. Bristol was appointed to the church in New York last October. Two months ago he was accused of criminal offenses, and several boys of his church asserted against him that he was guilty of them, and was suspended. He again came to New York to defend his return, and was reinstated. Last March there was another bitter fight over Bristol in the New York church. The pastor was called before the Committee on Charges reported that the accusations were not sustained, but recommended that the case be referred at the next annual meeting of the church. Dr. Bristol is a brilliant speaker, and at first the country church was not large enough to hold the crowds called to hear him. Now, however, his popularity has increased, and his services are well received. His activity as a Prohibitionist, he spoke at Prohibition meetings all over Rockland county.

It is supposed that the Brooklyn institution that indentured Ida to Dr. Bristol will make no investigation of her story to be made. Dr. Bristol's congregation is divided in opinion as to its truth, and it is not yet known if he will preach on Sunday next.

#### Brighter Prospects for Iron.

**PHILADELPHIA.** Dec. 29.—A review of the iron trade of 1885 has just been prepared by James E. Swank, General Manager of the Pittsburgh Iron Company. The beginning of the year was marked, he says, by a steady scaling of prices from January to July, except for steel rails. In July and August all prices stiffened, and in September a slight advance was established, steel rails taking the lead, and continuing to rise until the end of the year. The gains in the price of the last campaign were more favorable than in all previous years. The market for iron and steel for 1886 is expected to be even more favorable than for 1885. The report continues:

If there were no obstacles of some serious nature, such as the strike, the future looks bright. Notwithstanding trouble, however, it can be said that a feeling of confidence in the future of basic iron prevails throughout the entire country.

#### Urging Frenchmen to Go to Canada.

**MONTREAL.** Dec. 29.—From private information received by a person, that Mr. T. M. Moore, president of the French Canadian Bank, who is now in Paris, is making a vigorous effort to induce French emigration to Canada. This is in accord with the well-known French Canadian policy to make the province of Quebec exclusively, and the remainder of the Dominion as much as possible, French in religion, language, and laws. Mr. Moore, in a special manner, appeals to the people of Normandy, Brittany, Savoy, Franche-Comte, and Lorraine, telling them that they would be safe, for in the course of houses spoken in their native tongue, as far as home at home, in Canada, where they could easily find employment. The French of these departments would soon adapt themselves to the climate and soil, and the warlike qualities of his appearance in the anxiety of the French Canadians to find immigrants who would be in every way suitable for their country. The migration to Canada is, he says, from Paris to St. Malo, a fact, if uttered to Canada, that would be received with alarm. Mr. Moore, himself, left for Quebec, and is now engaged in the business of the watch and clock trade. He has a large number of French friends in Quebec, and is well known among them.

**Plans for the New Broadway Underground.**

Mr. J. Coleman Drayton, one of the incorporators and directors of the District Railway Company, is out of town. The Board of Directors will organize as soon as he returns. He is expected shortly. Immediately after the organization will be presented to the Authorities, and to the proprietors holding the franchises, the plan of the new system of underground roads, which will connect the various parts of the city.
